To whom it may concern

Re: Engineering centers in Belarus

Being an IT Consultancy and Custom Solution Development Company for more than 10 years, we at Bitpark Ltd. (<http://bp.by>) are interested in the development of the Belarusian IT sector and close cooperation with foreign partners. Our company is a Member of the Belarusian Chamber of Commerce and Industry.

We have relevant competencies and offer the following services to the interested parties:

- Setup of engineering centers in locations with reduced maintenance costs
- Technical consulting and formation of working groups (teams) for projects
- Initialization of the process (formation of teams) of support and development of ERP/CRM/ECM systems
- Representing the interests of the Customer, providing technical audit, supervision, and support of the projects placed on outsourcing in Belarus
- Assessment of the competences of companies and working groups selected for the implementation of complex projects (AI, neural networks, deep data analysis, complex data structures)
- Deliver of the most sophisticated solutions to be developed by an existing group of senior engineers. Our main tech stack is all about Java/SQL/NoSQL/Node.js/PHP/C/C++/Cloud technologies/Mobile platforms.

We are interested in collaboration with the partners that have long-term interests in IT development and want to improve and optimize business processes through investing assets and technologies in locations with a high level of training of scientific and technical personnel.

Your considerations of the matter will be most appreciated at ggaiko@bp.by and gennadigaiko@gmail.com.

We are looking forward to fruitful cooperation.

With best regards,

Gennadi Gaiko,
Business Development Director
