Agroecoestates of Senno District

What could be better than a country house for rest? Perhaps nothing! You can go there at any time of the year, with a big company, or you can retire with your close people, rest your soul and body, go horseback riding, enjoy the beauty of nature.

What country house without a Russian bath? A real Russian bath is a great way to improve health, prolong youth and gain harmony. A lot of steam, you can taste the delicious and juicy kebab.

In general, it is better to come and feel the whole atmosphere of country rest. You are waiting for friendly and sympathetic hosts who organize the most comfortable and hospitable reception. Rest in each estate is pleasant in its own way.

Senno region has huge investment opportunities, great potential. This is not only an advantageous geographical position, proximity to major industrial centers and European capitals, modern telecommunications, transport and banking infrastructure. There are educated, hard-working people who are able to work effectively and create a competitive product. In addition, in the area there are such invaluable advantages as clean air, the absence of traffic jams and other negative features of modern megacities.

There are significant reserves for the creation of modern industrial modules at the place or near the production of agricultural products.

We are open for cooperation. We are ready to consider any investment and innovative proposals.

Welcome to Senno district!
